

```
package com.sxt.factory.abstractFactory;

public interface Seat {
    void massage();
}

class LuxurySeat implements Seat{

    @Override
    public void massage() {
        System.err.println("可以自动按摩");
    }

}

class LowSeat implements Seat{

    @Override
    public void massage() {
        System.err.println("不可以自动按摩");
    }

}
```
