

```
package com.sxt.chainOfResponsibility;

public class Client {
    public static void main(String[] args) {
        Leader a=new Director("张三");
        Leader b=new Manager("李四");
        Leader c=new GeneralManager("王五");

        //组织责任链对象的关系
        a.setNextLeader(b);
        b.setNextLeader(c);

        //开始请假操作
        LeaveRequest req1=new LeaveRequest("TOM", 10, "回英国老家探亲!");
        a.handleRequest(req1);
    }
}
```
