```java
package com.sxt.chainOfResponsibility;
/**
 * 总经理
 * @author 江
 *
 */

public class GeneralManager extends Leader{
        public GeneralManager(String name) {
                super(name);
        }

        @Override
        public void handleRequest(LeaveRequest request) {
         if(request.getLeaveDays()<30) {
                System.err.println("员工:"+request.getEmpName()+"请假，天
数:"+request.getLeaveDays()+"天，理由:"+request.getReason());
                System.err.println("总经理"+this.name+"审批通过！");
        }else {
                System.err.println("莫非"+request.getEmpName()+"想辞职,居然想请
假"+request.getLeaveDays());
        }
        }
}
```
