```java
package com.sxt.chat04;

import java.io.Closeable;
import java.io.IOException;

public class Utils {
	/**
	 * 释放资源
	 */
		public static void close(Closeable... targets) {
				for(Closeable target:targets) {
						try {
								if(null!=target) {
								target.close();
								}
						} catch (IOException e) {
								e.printStackTrace();
						}
				}
		}
}
```
